

CONSERVATION AGREEMENTS: ສັນຍາການຮັກສາຄວາມບອດໄພ:

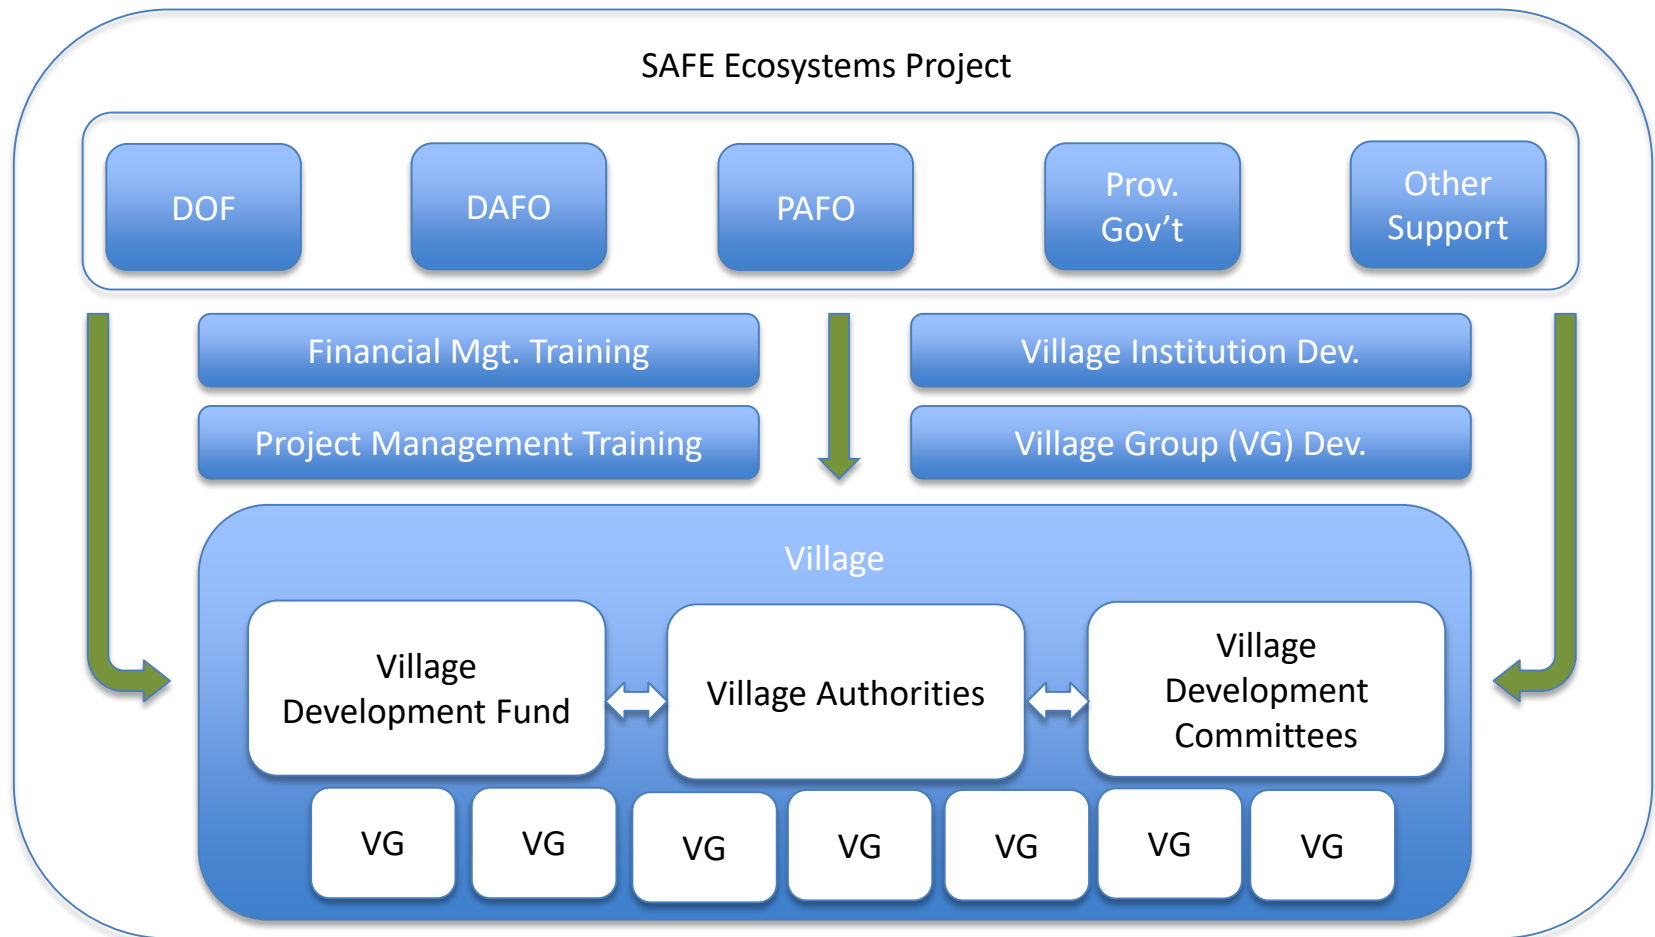

Structure within the SAFE Ecosystems
Project

SAFE ECOSYSTEMS PROJECT
UNDP – GEF – DOF

Conservation Agreement Structure

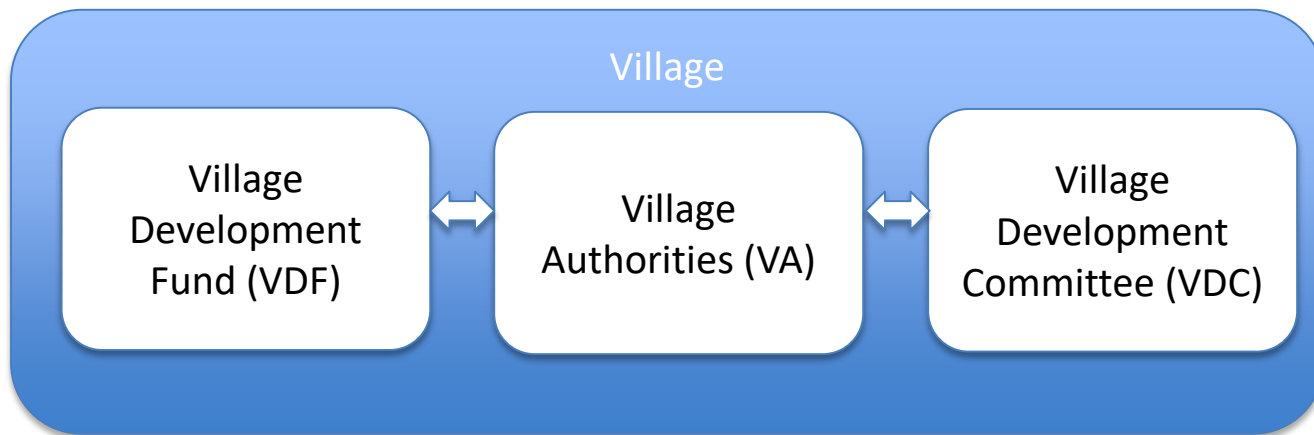

Required Structure for SAFE Conservation Agreements

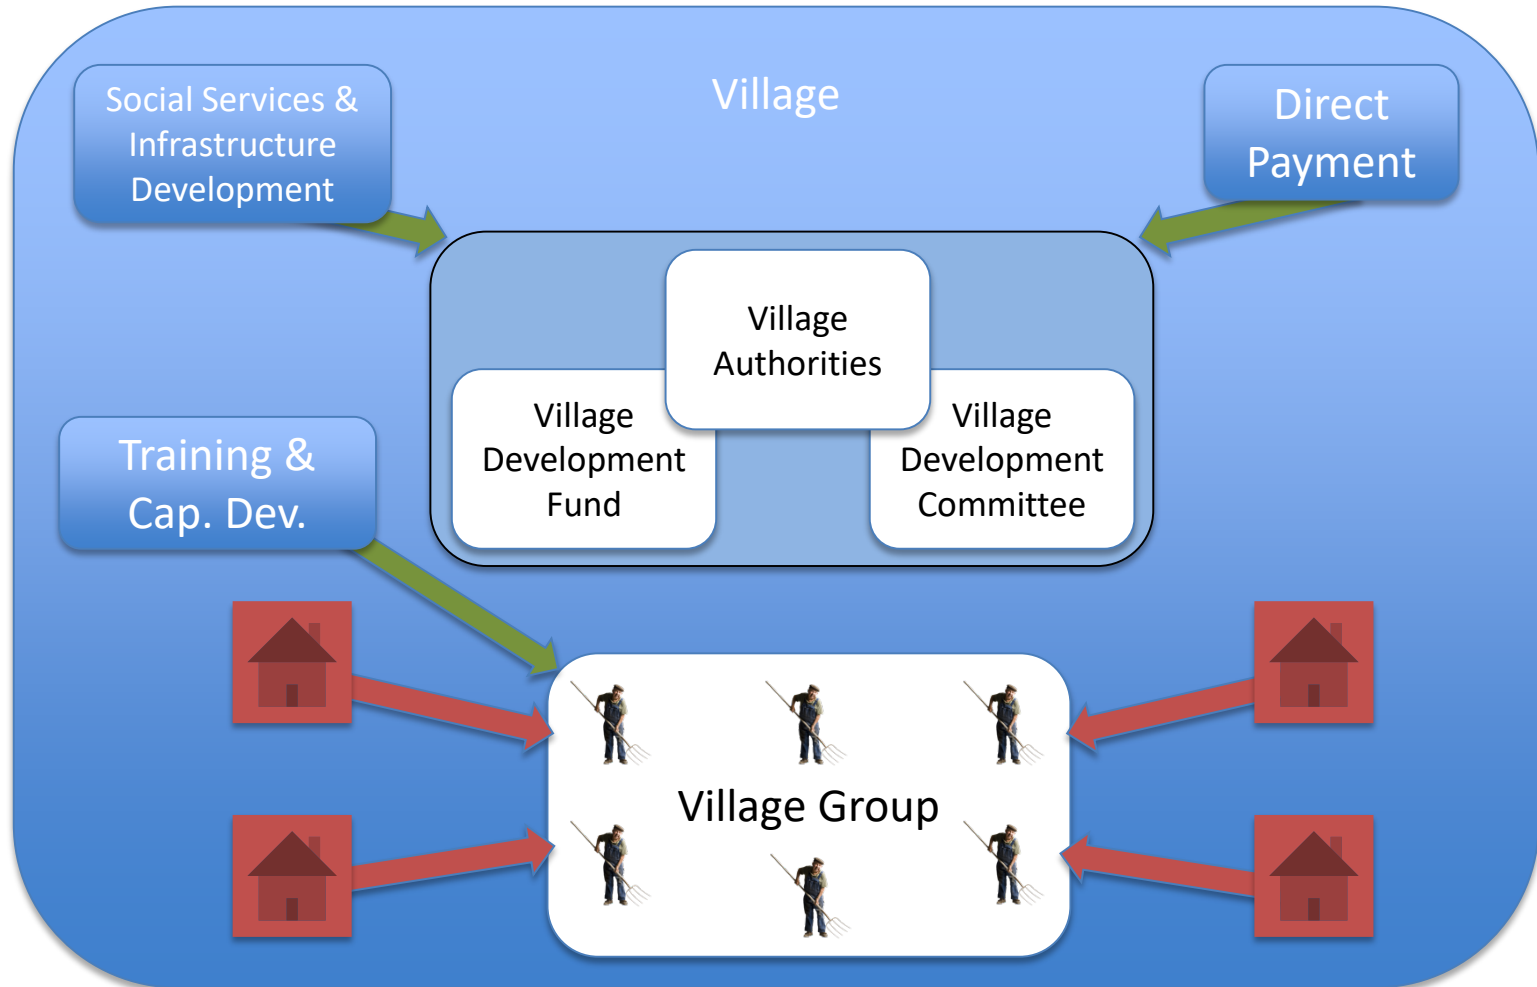

Entry Point: Village Institution Development

SAFE Ecosystems Project

- Creation of **Village Development Fund** to receive direct payments from the project.
- Creation of **Village Development Committee** to coordinate activities at the village level.
- Capacity Building: (i) Financial Management, (ii) Project Management

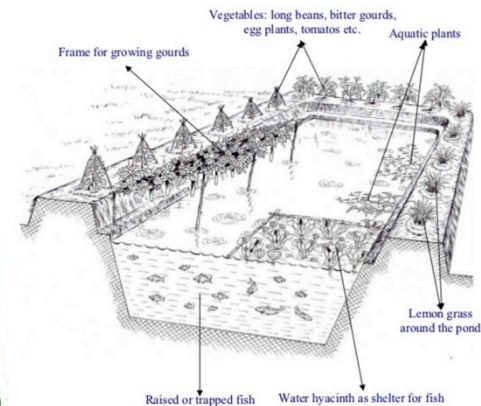

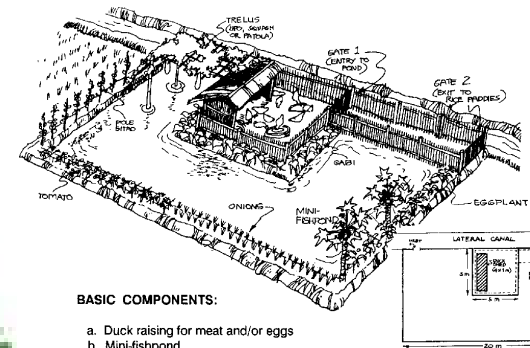

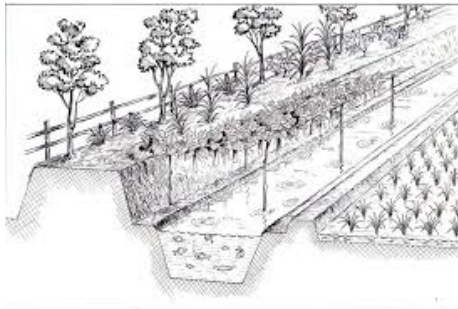

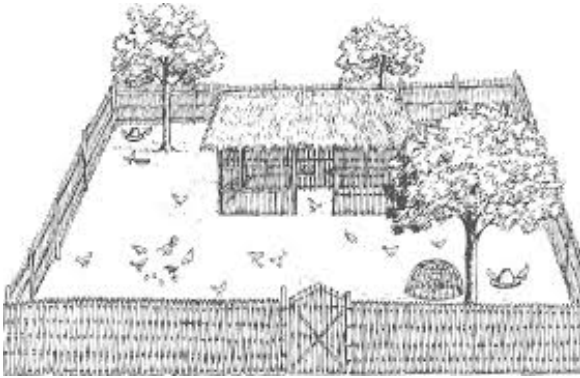

Village Group Development

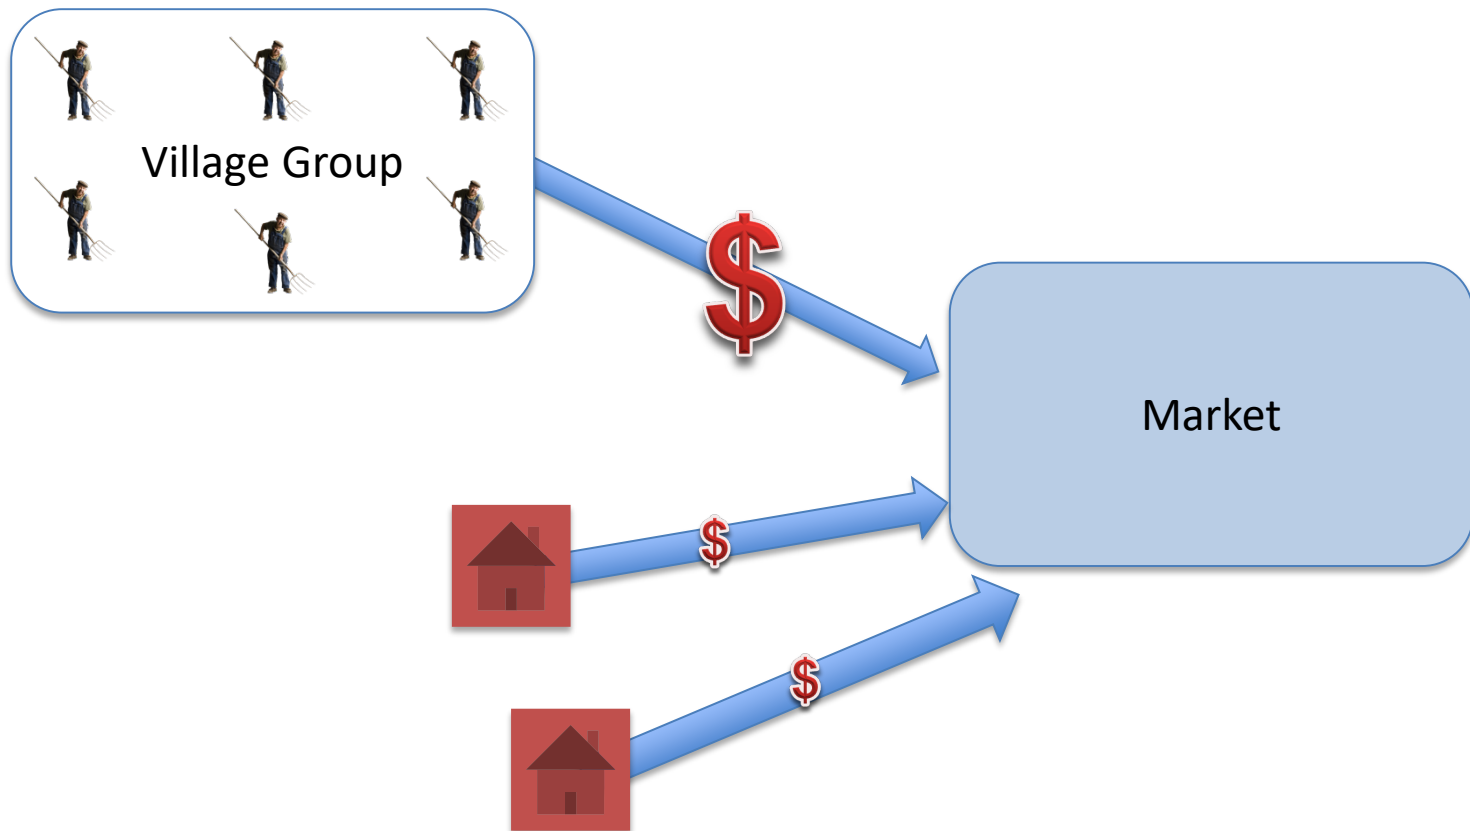

Why Village Groups?

- Village Groups and Demonstration Activities will become the focus for the SAFE Project through Conservation Agreements.
- Conservation Agreements must benefit all people in the village, not just some people.
- The Village Groups will serve as the arms of the Village Authorities, VDFs and VDCs.
- Village Groups are more equitable than providing services to individuals.

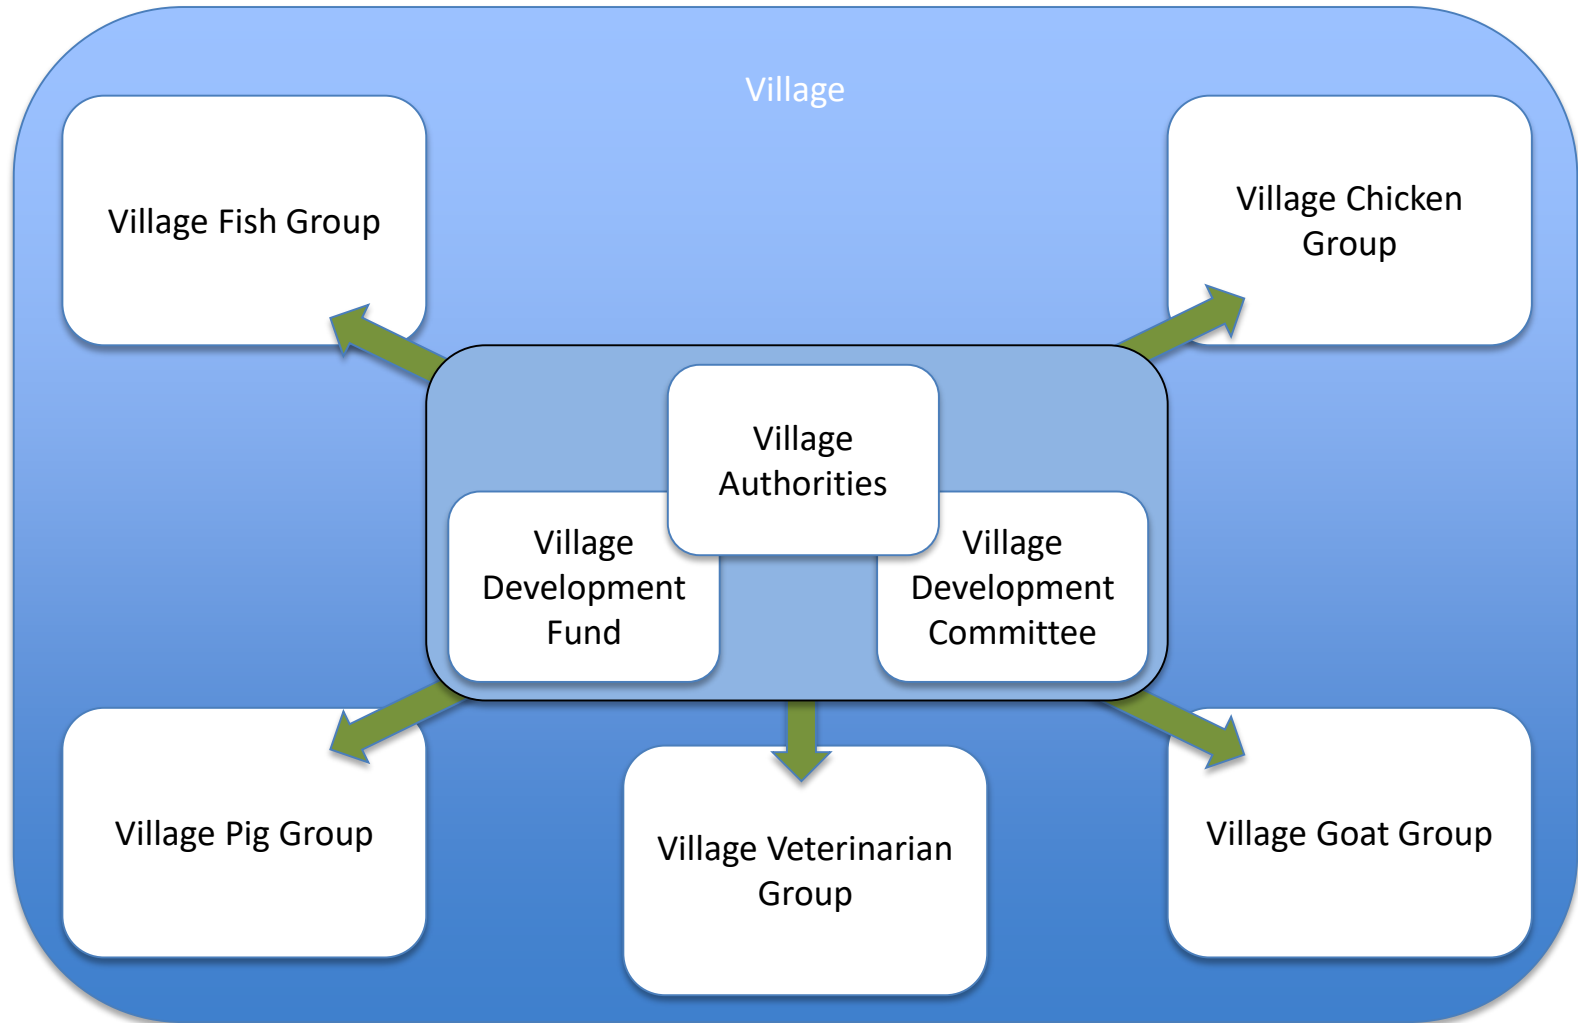

Demonstration Activities to be Implemented with Village Groups

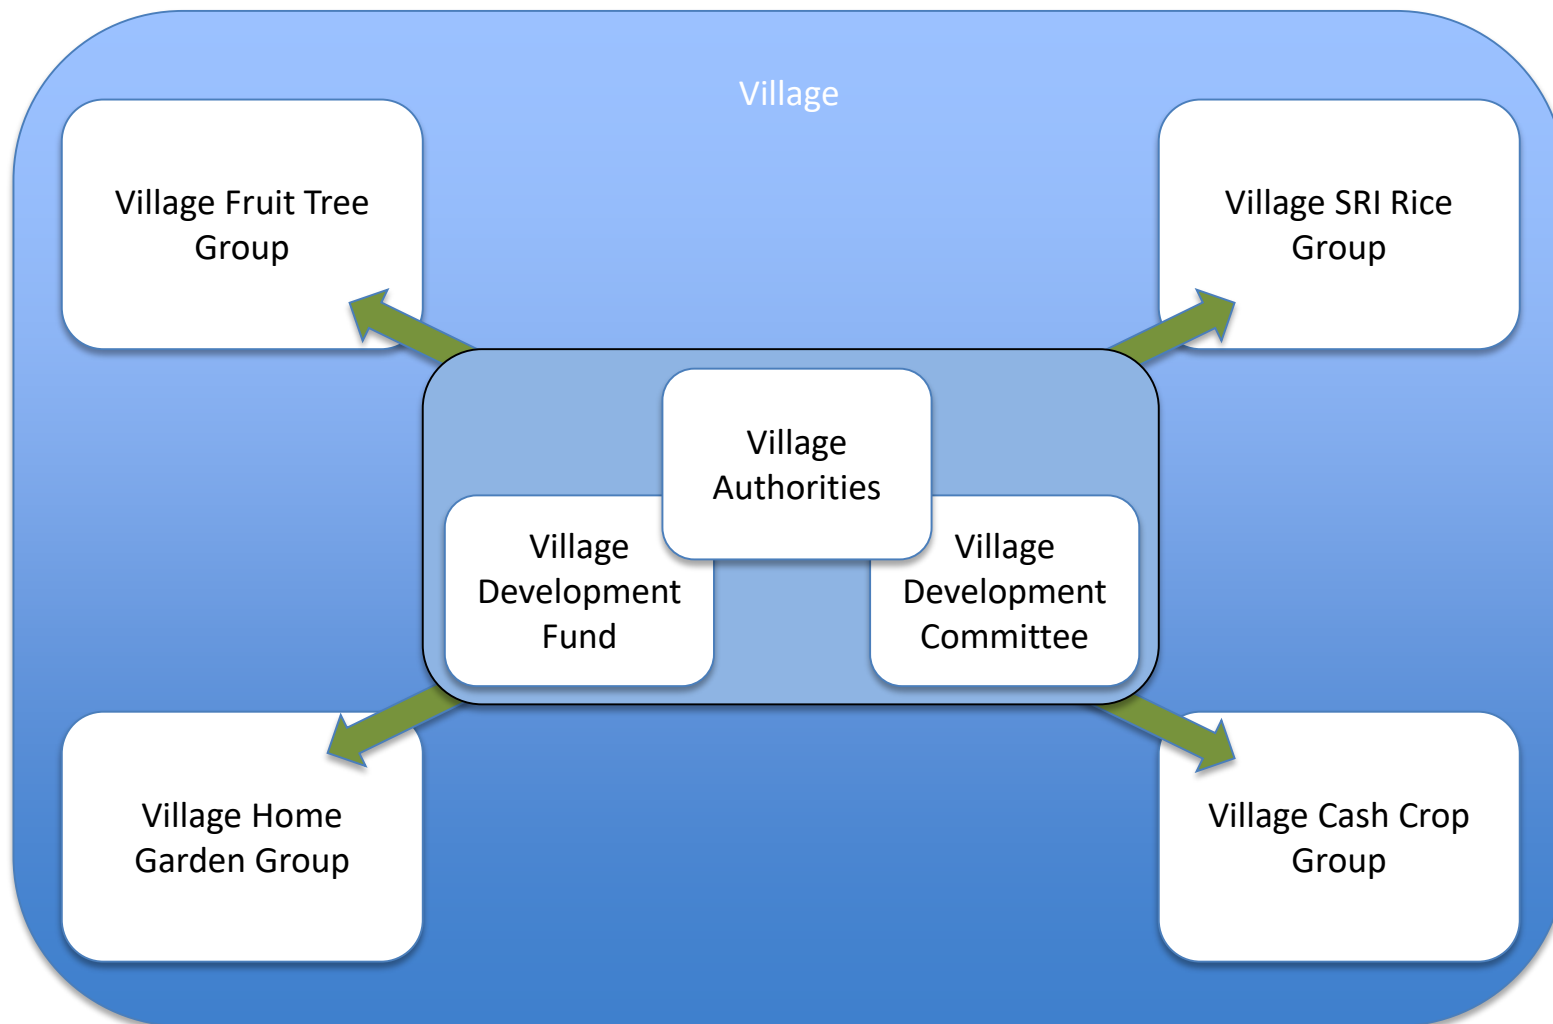

Improved Economic Performance through Village Groups

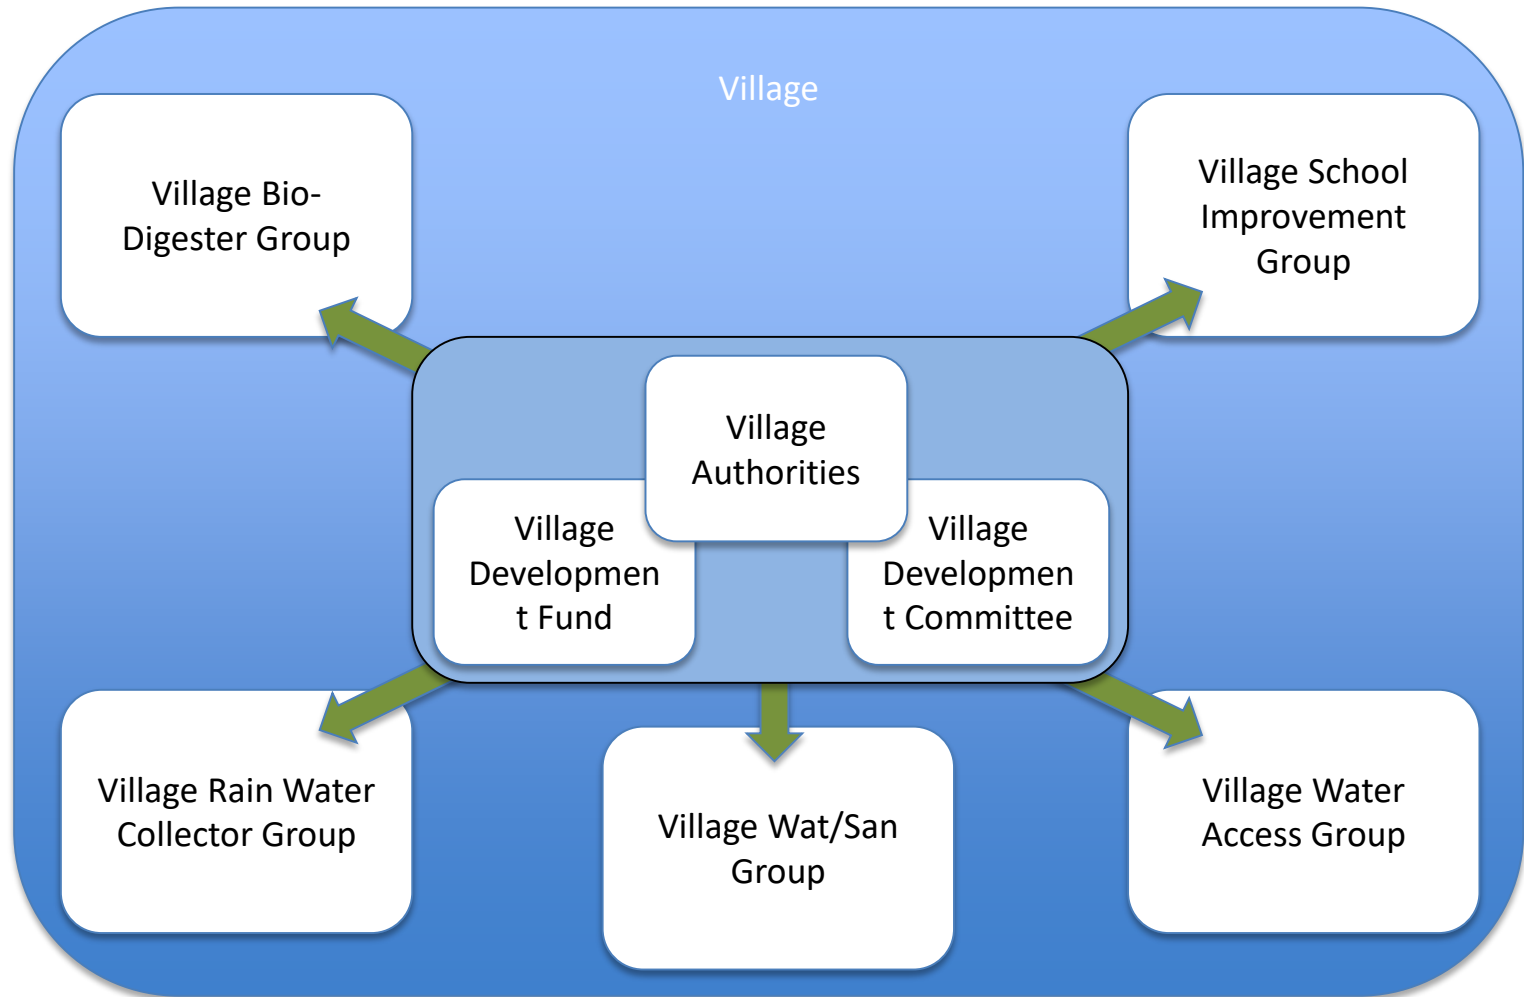

Creation of Village Livestock Groups

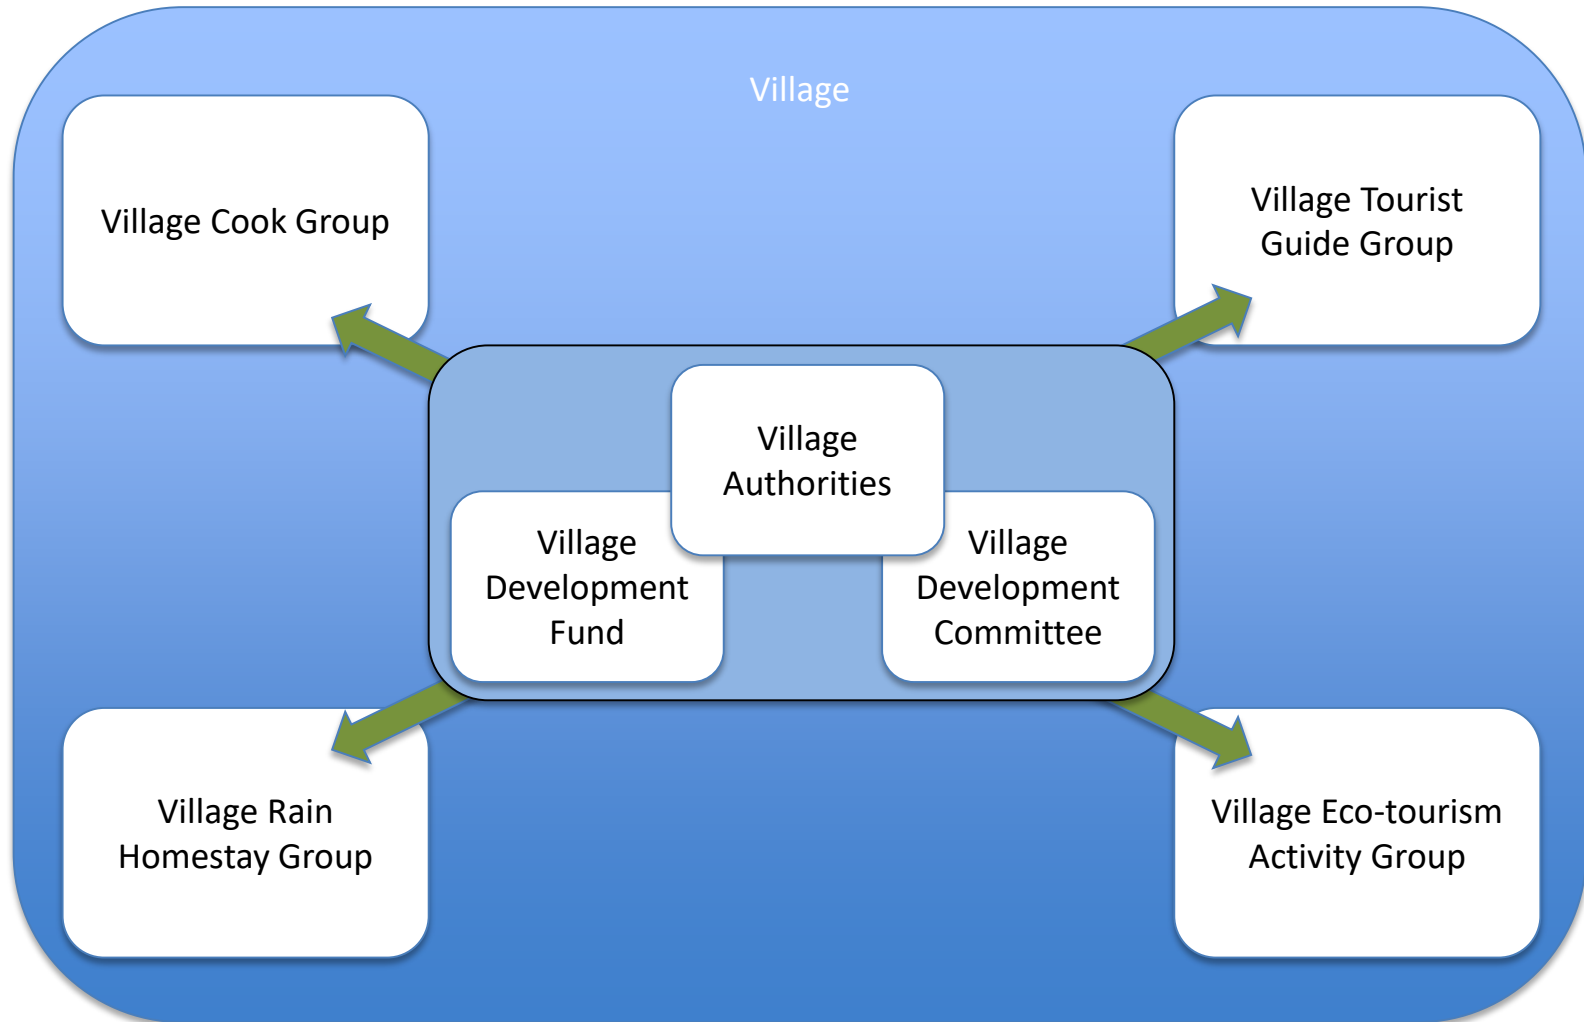

Creation of Village Agriculture Groups

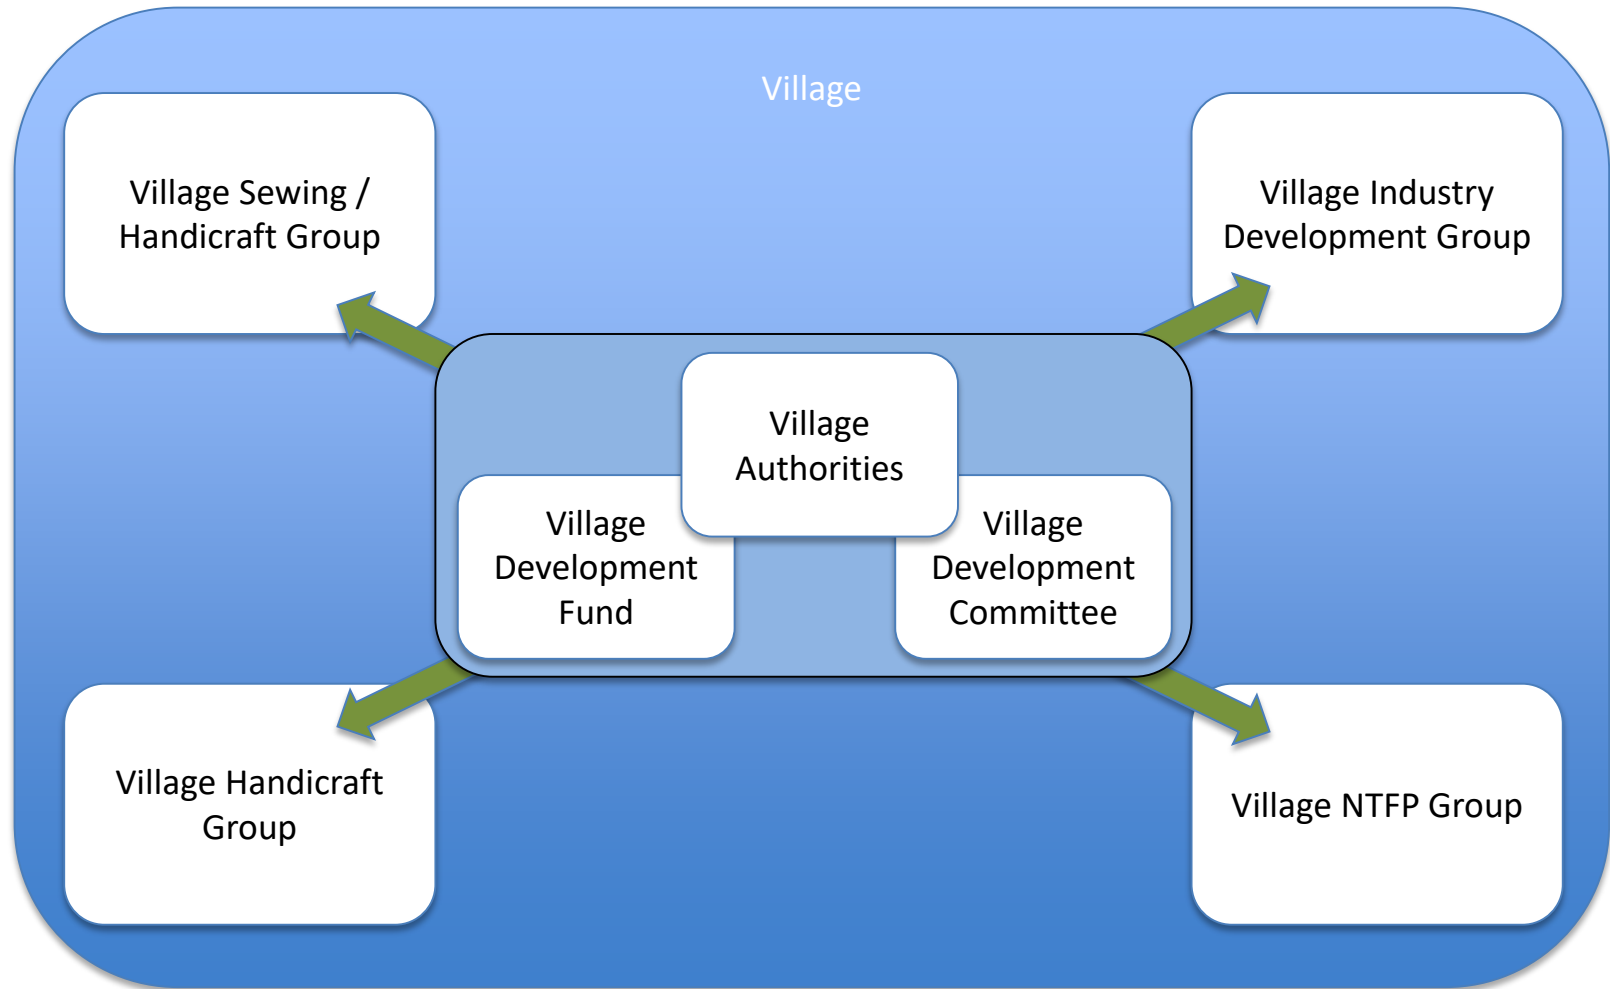

Creation of Village Social Services / Infrastructure Groups

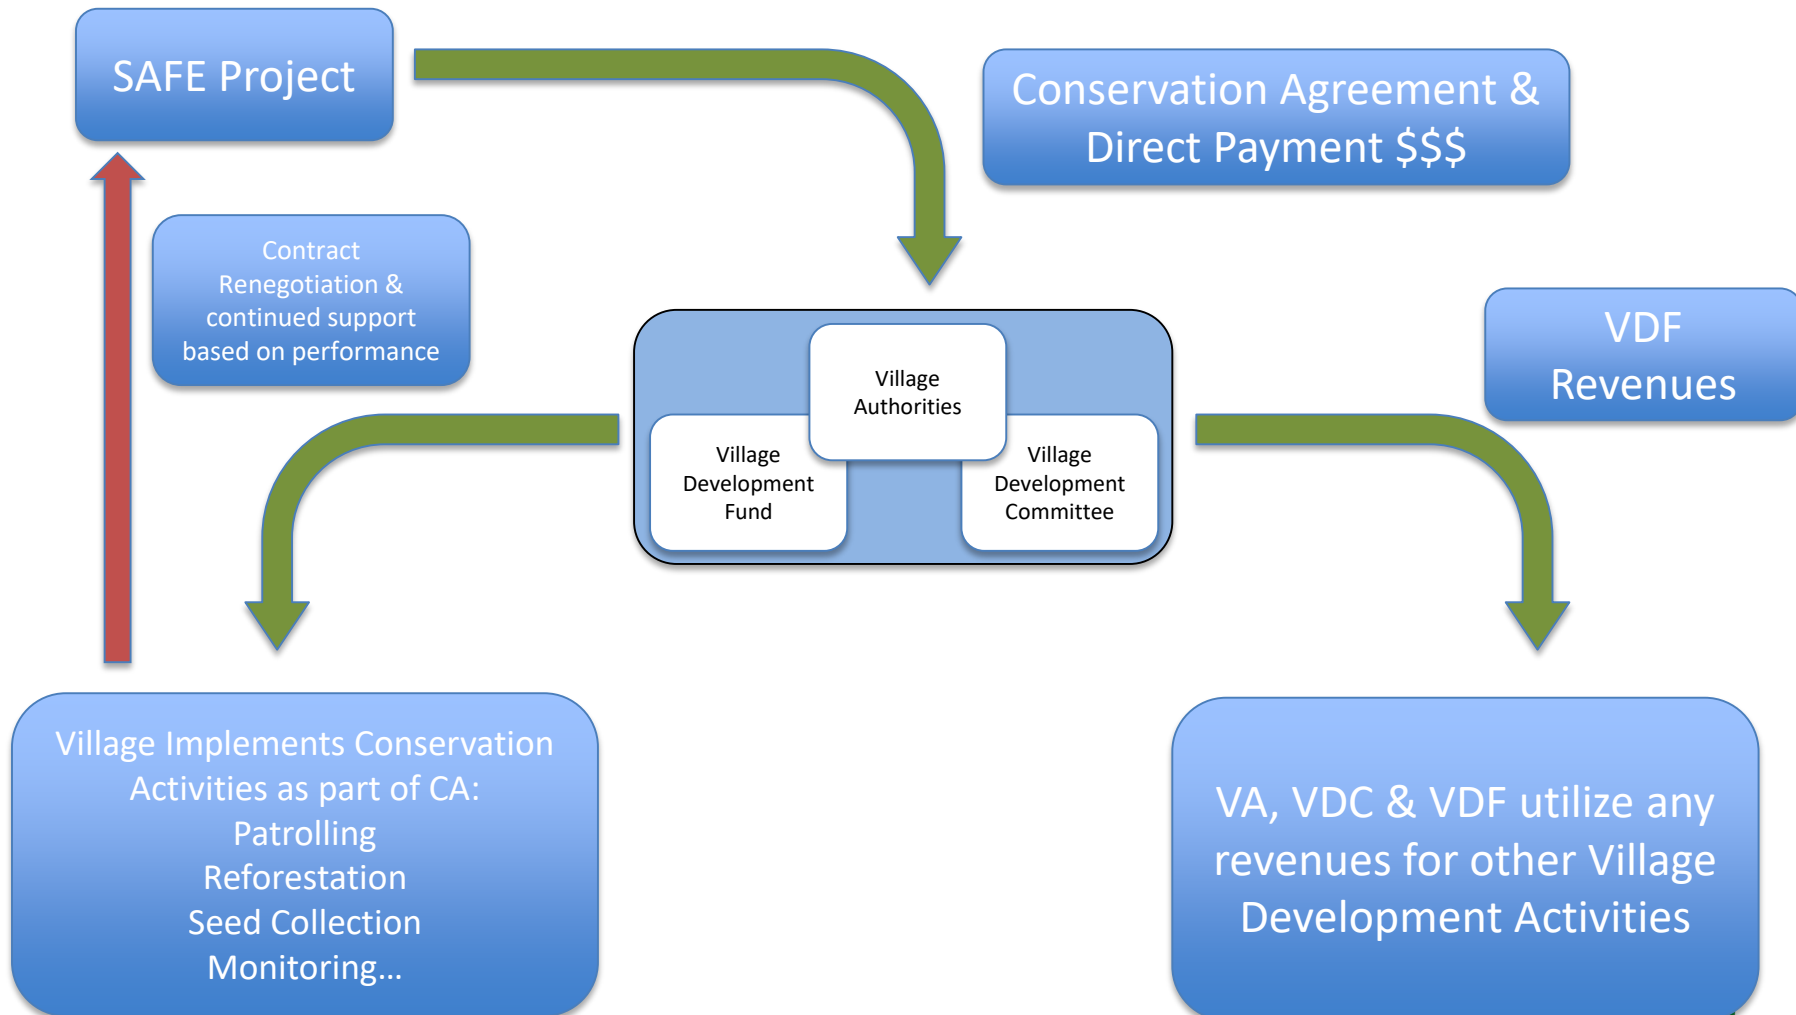

Creation of Eco-tourism Groups

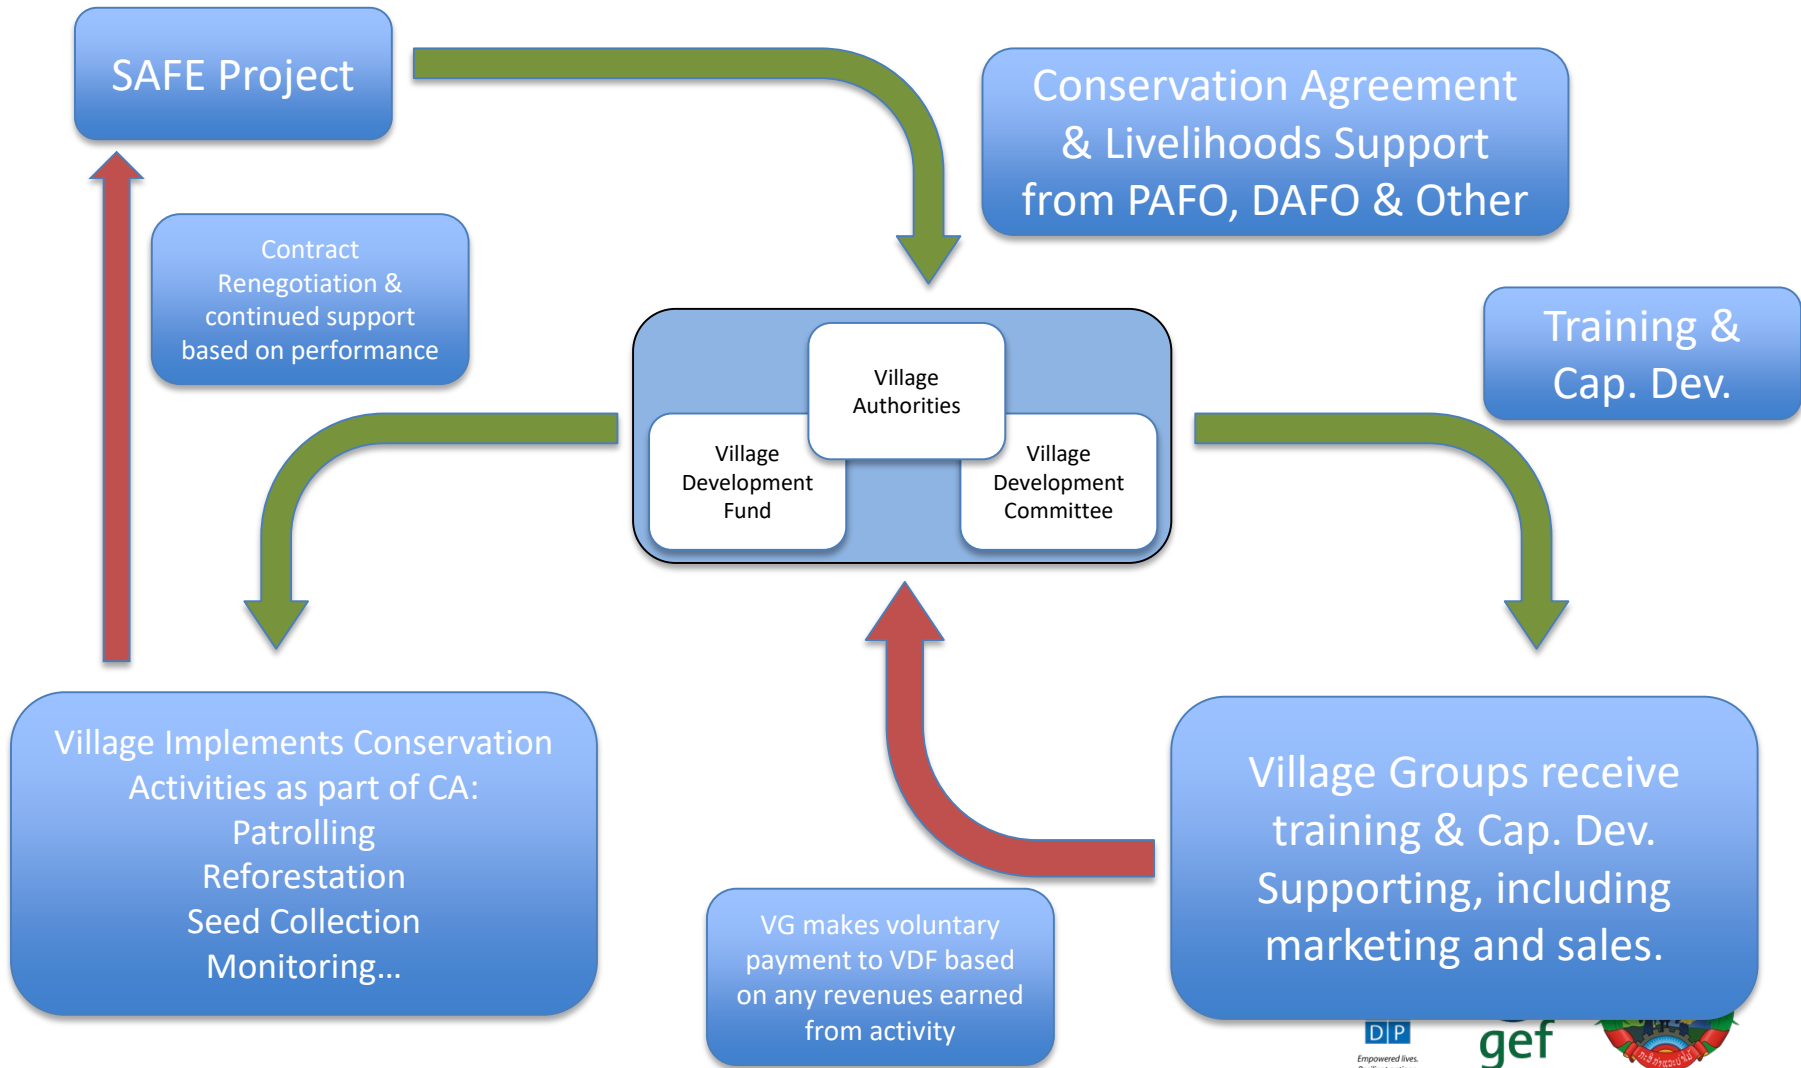

Creation of Village Alternative Livelihood Groups

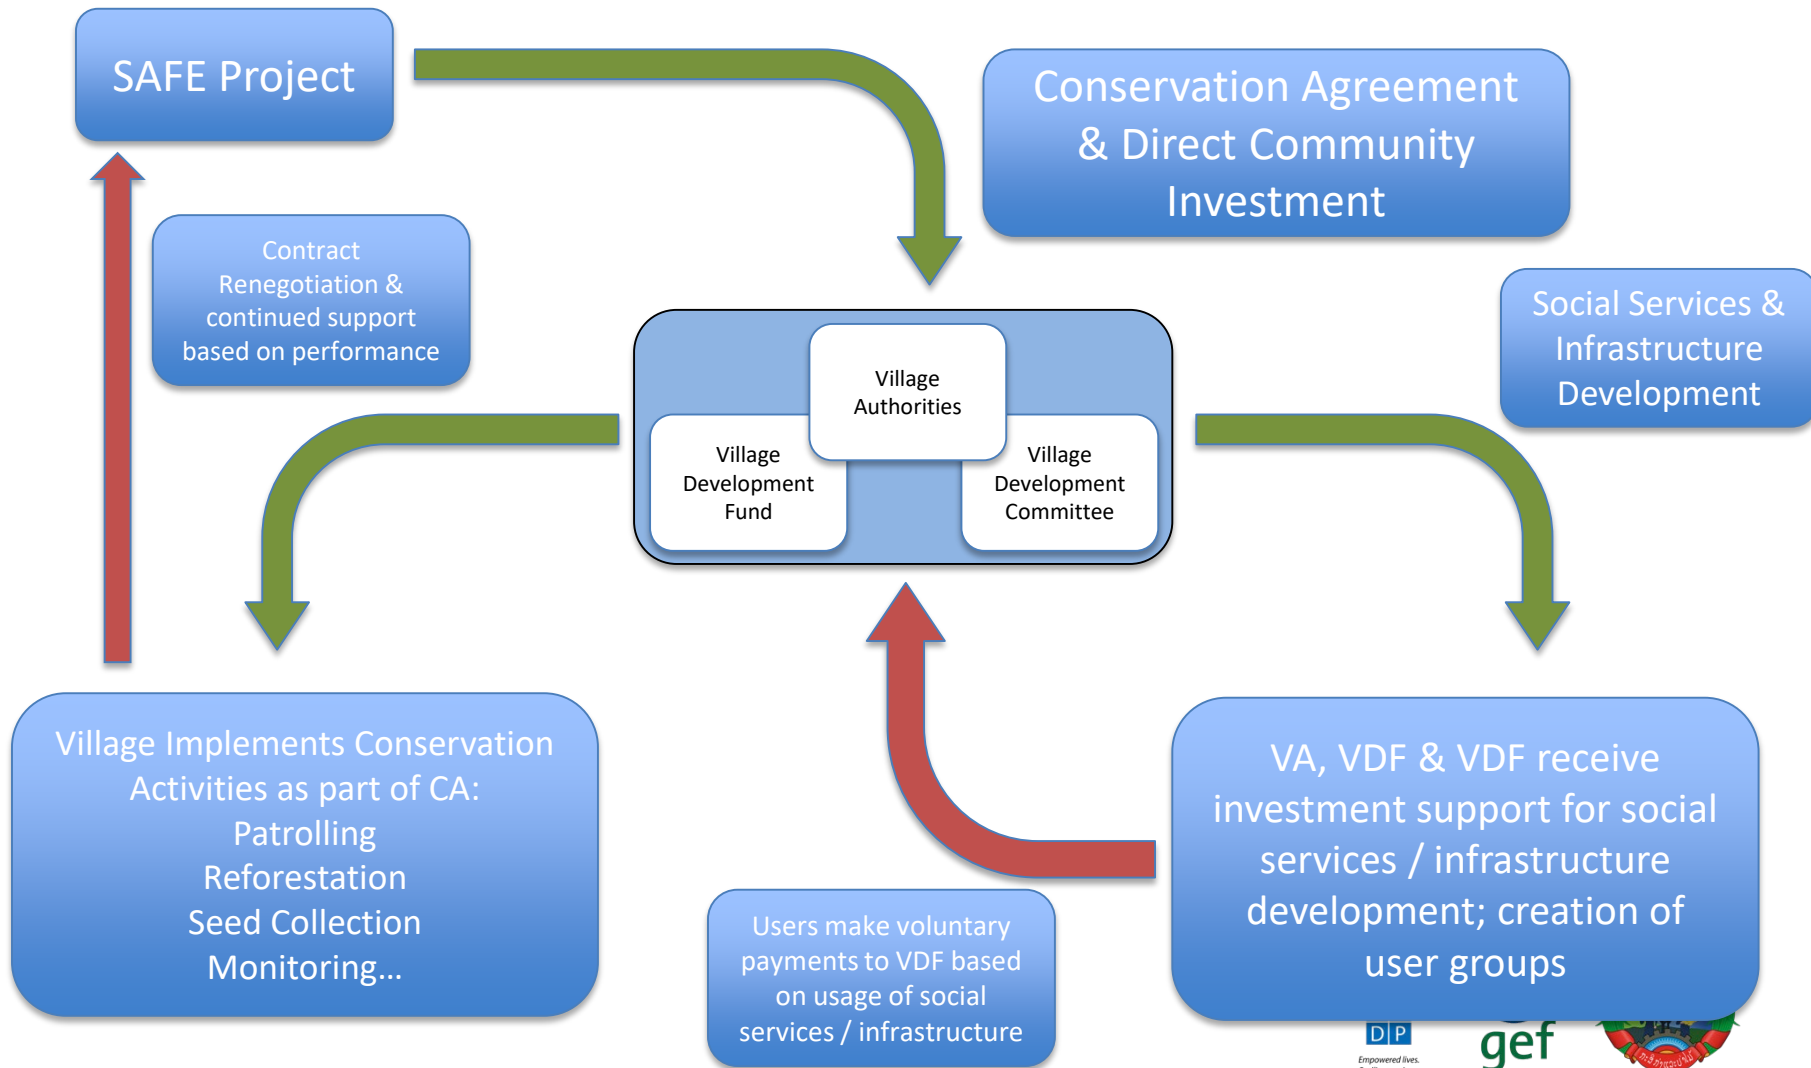

Possible Flow of Direct Payments from SAFE Project to Communities

Possible Flow of Livelihoods Support, Training & Capacity Building from SAFE Project to Communities

Possible Flow of Direct Investment into Villages from SAFE Project to Communities

Thank You!
